Tips for Raising Rexi

Race Needs

Fur Loss

Add the following to the dog date:

Dog Food Nutrients:

Vitamin B

Zinc

Omega-3

Omega-6

Dietary Supplements:

Salmon Oil for dogs

If you don't see a chance take the dog to a Vet.

Obesity

Feed the dog 2 to 3 times a day and don't leave food in the bowl during the day.

Keep constantly weight the dog one a month and record the weight.

In case of weight gain go see a Vet for a weight lose plan.

Food

When it comes to choosing food for your dog, you need to make sure the following include:

Animal protein originating from a meat dish.

Essential fatty acids omega-3 and omega-6 which originate from flaxseeds fish oil canola algae oil.

Carbohydrates that originate in potatoes, peas, filled rice, oatmeal and grits.
